

Prestressed & Precast concrete Solutions

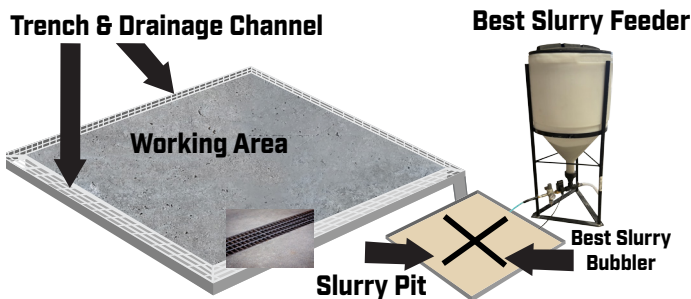

*Are you a Prestressed or Precast concrete owner?
Does your facility look like that???*

Look no further!

**Elevate your factory's performance with our cutting-edge
BEST-SLURRY-SYSTEM**

Unlock a Cleaner, Safer, and Cost-Effective Environment!

- 1. Treating Slurry Paddles in Your Facility Area: Use our BestDRY™ for effective treatment:**
 - Pour BestDRY™ into the paddles.
 - Mix with an excavator until fully dry (it remains dry no matter what).
 - Fill dewatering bags with dry slurry and dispose of it. No special hauling needed.
- 2. Enhance Your Working Area:**
 - Build a trench and drainage ditch around your working area (refer to the attached drawing).
 - Create a covered pit to prevent rainwater infiltration.
 - BEST SLURRY SYSTEM Includes: Best Slurry Feeder, Best Slurry Bubbler, 3 air hose and 3-Way Manifold

Prestressed & Precast concrete Solutions

Clean & Safe: Eliminate slippery slurry paddles and airborne silica dust.

BEST SLURRY SYSTEM FEATURES & BENEFITS:

1. Reduce Airborne Dust:

- Keep your shop clean and safe: BestSEP™ effectively minimizes airborne dust, creating a safer and healthier working environment for your employees.
- Healthier workspace: The reduction of silica dust contributes to a healthier atmosphere, promoting overall well-being for your workers.

2. Cost Reduction:

- Reusable water: Treat slurry with BestSEP™ for clean and reusable water, leading to significant cost savings by minimizing the need for new water sources.
- Prevent deposits: Cleaner tools and prevention of deposits in pipes result in cost reductions associated with maintenance and potential damage.
- No need for expensive polymers: BestSEP™ eliminates the requirement for costly liquid polymers, reducing operational expenses.
- No efficiency loss: The system maintains efficiency even if left open, ensuring continuous cost-effective performance.
- Harmless: BestSEP™ is safe to handle, requiring no gloves during operation.

3. Why to use our BestSEP™:

- Top-Quality: Best product in the market, made in the US
- Pure Water: Ensures the best quality of water for your needs
- Accessible: 6 USA warehouses for prompt service

MADE IN USA

4. Easy to Operate:

- Automated dosage adjustment: The system features an automated mechanism that adjusts BestSEP™ dosage based on daily water usage, simplifying the operational process.
- User-friendly: The system is designed for easy and intuitive operation, requiring minimal training for users.

5. Versatile Compatibility:

- Compatible with existing systems: BestSEP™ seamlessly integrates with your current infrastructure, eliminating the need for expensive system replacements.
- Simple and economical solution: For those without a dedicated system, BestSEP™ offers both a simple and economical solution, ensuring accessibility for a wide range of users.

ONLY \$15.58 to treat 100 gallon of slurry with BestSEP™ and BestDRY™
